

BACKGROUND

In providing public services to its citizens and visitors the costs incurred by the City of Chula Vista extend far beyond staff salaries. These costs can be divided into direct and overhead costs.

Direct Costs

Direct costs are costs that can be specifically identified with a particular activity, project or program. These costs generally include salaries and wages; fringe benefits and paid time off; maintenance and operation costs; and a building use allowance.

Fringe benefits for full time City employees include participation in the California Public Employee Retirement Systems (CalPERS), medical insurance, workers' compensation insurance, and Medicare. Paid time off includes vacation time, holidays, sick leave, compensatory time, and management leave.

Maintenance and operation costs are determined at the department and section level. These costs include most, but not all, supplies and service costs, fixed asset replacement, and utilities.

The building use allowance provides a means of allocating the cost of city building to a period benefitting from the asset use. The allowance is calculated based upon the City's schedule of depreciating buildings as reported in the Certified Annual Financial Report (CAFR) assuming a 50 year life-span.

Overhead Costs

Overhead costs include both departmental and citywide support staff expenses. Departmental overhead includes administrative and supervisory support staff and is allocated by division within each department.

Citywide overhead includes services provided by support departments. These departments do not generally provide services directly to the public but are essential to the operation of the City. In addition, certain budget items within departmental budgets are of citywide benefits and are added to the citywide overhead allocable costs. Citywide overhead costs are allocated at the department level, based upon various drivers. The specific

drivers applied are selected to best reflect the relative benefit received.

FULLY BURDENED HOURLY RATES

City staff annually adopts a set of fully burdened hourly rates (FBHR), providing a convenient method for calculating the full cost of providing services to citizens and visitors. Rates are calculated by department, section, and classification.

These rates serve as a basis for identifying the true cost of providing services, calculating fixed fee levels, and understanding the fiscal impacts of fee subsidies.

The City's fully burdened hourly rates are not subject to annual Council adoption and are included in the Master Fee Schedule for informational purposes only. Please contact the Finance Department to confirm current rates.

The current schedule of fully burdened hourly rates is as follows:
