Introduction to SDCP

San Diego Community Power (SDCP) is a CCA program established by the cities of Chula Vista, Encinitas, Imperial Beach, La Mesa, and San Diego, in order to source 100% Renewable Energy by 2035 or sooner.

San Diego Community Power

What are the agreements and goals of SDCP?

- 100% renewable energy by 2035
- Offer competitive rates
- Achieve GHG reduction goals
- Prioritize local renewable and distributed energy resources
- Demonstrate local economic benefits, local workforce development, and innovative energy programs
- Promote investment in communities of concern and programs centered on economic, environmental, and social equity
- Be financially sound

Founding Members

City of Chula Vista

Steve Padilla, Councilmember

John McCann, Councilmember (alternate)

City of Encinitas

Climate Action Challenge

Switch to LEDs

Replacing just 5 incandescent light bulbs with LEDs can save $60 or more per year in electricity costs! Upgrading to LEDs is one of the easiest ways to save energy and money.

Programs

MAAC Healthy Homes and Weatherization Program

Provides low-income residents with no cost weatherization to help save energy and make their home more energy efficient

Information

SDG&E Marketplace

Search all major retailers for the most energy efficient appliances at once, find the most energy efficient products and take advantage of available rebates.

Programs

SDG&E Energy Saving Assistance Program (ESAP)

The ESAP program can make minor improvements to your home at no cost to you, such as insulation and appliance replacement, to help save energy.

Information

LED Library Checkout

Try before you buy! Check out LED lights from your local Chula Vista Library.

Programs

Mobile Home Energy Efficiency Program

Low cost home energy upgrades for mobile home residents

Financing

Home Energy Efficiency Loan

Affordable financing for home energy saving projects
