RACIAL AND IDENTITY  
PROFILING ACT (RIPA)

ASSEMBLY BILL (AB) 953

Sergeant Bryan Jackson

# AB 953

## Background

AB 953 (Weber, 2016) was introduced by the California State Legislature to help develop, as well as encourage, a collaborative process between LEAs in the community to end racial and identity profiling.

The goals are to develop community based solutions by (1) collecting stop data and (2) providing a forum for LEA and community conversation to discuss developing best practices based on evidence collected from those stops

The bill requires all city and county LEAs in California, as well as the California Highway Patrol and peace officers of California State and University educational institutions, to collect perceived demographic and other detailed data regarding pedestrian and traffic stops.

# AB 953

## RIPA Advisory Board

As part of the RIPA assembly bill. The Racial and Identity Profiling Advisory Board (RIPA Board) was formed.

The RIPA Board is a diverse group of members that represent the public, law enforcement and educators. At the direction of the Legislature, their charge is to eliminate racial and identity profiling, and improve diversity and racial and identity sensitivity in law enforcement.

The RIPA Board aims to strengthen law enforcement-community relations in California through collaboration, transparency, and accountability. The California Department of Justice, Office of the Attorney General, has the primary oversight of the RIPA Board.

# AB 953

## RIPA ADVISORY BOARD

- Analyze stop data information
- Publish annual reports that detail the past and current status of RIPA
- Analyze law enforcement training
- Make policy recommendations for eliminating racial and identity profiling
- Work with state and local law enforcement agencies to review, analyze policies and practices

## PERCEPTION

Can a perception be wrong? No, there is no wrong perception but it must be YOUR honest perception.

Government Code section 12525.5 requires officers to record perception data and the regulations make clear that officers should not record demographic data (age or gender) seen on the person's ID card. It is also unlawful to knowingly record false information.
