
Military Equipment

714.1 PURPOSE AND SCOPE

This Department policy establishes guidelines for the use, training, approval, and procurement of existing military equipment and future military equipment acquisitions in accordance with California Assembly Bill 481 (AB 481), codified in California Government Code § 7070-7075. Additionally, this policy outlines the fiscal impact and specific descriptions of existing military equipment within the Department's inventory.

714.1.1 BACKGROUND

On September 30, 2021, the Governor of the State of California approved AB 481 requiring law enforcement agencies to obtain approval of a military equipment policy by the applicable governing body (The Chula Vista City Council). The Department is required to seek approval of this military equipment use policy from the governing body at a regular open meeting prior to the Department taking certain actions relating to the funding, acquisition, or use of military equipment, as defined.

The bill allows the governing body to approve the policy only if it determines that the military equipment meets specified standards. The policy is subject to annual review by the governing body to determine whether, based on an annual military equipment report, the standards set forth in the approving policy have been met. The governing body may renew the authorizing policy, disapprove authorization for particular military equipment where standards have not been met, or require modifications to this military equipment use policy to address any non-compliance with standards.

Finally, the bill requires publication of this military equipment use policy and the annual military equipment report on the Department's website. The military equipment use policy must be posted on the website at least 30 days prior to the City Council meeting.

714.1.3 MILITARY EQUIPMENT USAGE GUIDELINES

The Chula Vista Police Department retains and employs a wide variety of equipment, some of which is defined as military equipment by California Government Code § 7070, to assist in maintaining public safety by providing the highest quality police services to our community. Military equipment shall only be used by a Department employee only after applicable training, including any course required by the Commission on Peace Officer Standards and Training (POST), has been completed, unless exigent circumstances arise. Any military equipment acquired and authorized by the Department must be necessary because there is no reasonable alternative that can achieve the same objective of officer and civilian safety and be reasonably cost effective compared to available alternatives that can achieve the same objective of officer and civilian safety (California Government Code § 7071 (d)(1)(A)(C)). Additionally, it is the policy of the Chula Vista Police Department that its military equipment be used to safeguard the public's welfare, safety, civil rights, and civil liberties (California Government Code § 7071(d)(1)(B)).

The Chula Vista Police Department recognizes that critical incidents are unpredictable and can be very dynamic in nature. A variety of military equipment options can greatly assist incident commanders, officers, and specific units in bringing those incidents to a swift resolution in a safe manner. While this procedure is wide-ranging, it is not all inclusive. There may be instances wherein unpredictable critical incidents demand the need for incident commanders to authorize military equipment to be used in a manner not outlined within this policy. In scrutinizing those particular instances, the judgment of the incident commander influenced by the totality of the circumstances, public safety, officer safety, civil rights, and information available at the time will be used. It is incumbent upon incident commanders, supervisors, individual officers, and specific units to recognize the particular circumstances wherein military equipment should be employed to enhance the safety of the public and officers.

From time to time, certain equipment vendors and/or manufacturers may loan certain military equipment items to the Department for testing by various units to conduct assessments involving feasibility of use, cost analysis, effectiveness, and training efficacy. This process is commonly referred to as "Testing and Evaluation" (T & E). During the testing and evaluation process, various units and/or subject matter experts conduct assessments of the equipment being tested and opine the viability of whether or not an item of military equipment should be considered for Department use. Military equipment that is being tested shall **not** be used operationally without approval from the Chief of Police or their designee.

Military equipment items that have been assessed and recommended for final approval after undergoing the testing and evaluation process must be approved by the governing body and the Chief of the Police or their designee prior to being formally acquired for Department inventory and operational use.

714.12 MILITARY EQUIPMENT COMPLAINTS AND INQUIRIES

In some instances, the application and use of military equipment can cause questions and/or concerns for members of the community. It is of vital importance that community members' questions regarding the application and use of military equipment are addressed.

The Chula Vista Police Department is committed to full and fair investigation of citizen complaints. As such, the Department has sound internal procedures for thorough and impartial investigations of citizen complaints. The purchase of these supplies shall only be for equipment that has been previously approved by the governing body. The Military Equipment Coordinator or their designee shall report these purchases via the annual military equipment use list required by California Government Code § 7072.
