Field Plan Review of Fire Sprinkler System Modifications is optional on modifications involving twenty (20) or fewer sprinklers and required on modifications involving five (5) or fewer sprinklers. Scopes of work that involve simply exchanging existing sprinklers with quick response (QR) sprinklers qualify, regardless of the number of sprinklers exchanged.

Yes	No	Please verify that Plans and Scope of Work meet the following criteria:
<input type="checkbox"/>	<input type="checkbox"/>	The modification involves twenty (20) or fewer sprinklers. Sprinklers that are simply QR exchanges do not count towards the (20).
<input type="checkbox"/>	<input type="checkbox"/>	The modification is on a sprinkler system protecting a light hazard or ordinary hazard occupancy.
<input type="checkbox"/>	<input type="checkbox"/>	The modification is arranged so that hydraulic calculations are not required (e.g. including but not limited to (a) one fire sprinkler per existing outlet (b) no changes to density/spacing (c) similar pipe size and arrangement (d) same K factor).
<input type="checkbox"/>	<input type="checkbox"/>	The modification does not require changes to seismic bracing.

If any of the boxes are marked "No", then the project does not meet the scope criteria for a Field Plan Review. Submit plans for review using a tenant improvement application instead.

**Check / Mark  if applicable, indicate quantity, multiply with fee amount and type/write subtotal. Add subtotals in TOTAL box.**
