PRE-TEST INFORMATION

This fire suppression system has been 100% tested in accordance with the City of Chula Vista Fire Department's pre-testing protocol.

Date of Test: _____

Tested by (print name): _____ Signature: _____

Fire suppression company (managerial staff) acknowledges pre-test activity:

Manager (print name): _____ Signature: _____

PRE-TEST PROTOCOL

Upon completing installation of the system, pre-inspect/test all system components. Determine through pre-testing and inspection, the conformance of the system to the requirements of the drawings, specifications, and applicable codes. Correct deficiencies observed in pre-testing. Replace malfunctioning or damaged appurtenances, and re-test until satisfactory performance and conditions are achieved. Prepare a certification that the system has been installed in accordance with the approved plans and the manufacturer's listed installation and maintenance manual at the time of final inspection.

PLEASE NOTE:

- This form shall be completed and returned to the Chula Vista Fire Department prior to scheduling an inspection.
- A stamped set of the approved plans, and applicable technical manuals and/or calculations shall be on site prior to/during any fire inspections.
- A 72-hour notice is required for scheduling an inspection.
- Failed inspections/tests will result in additional fees.
