Subject: **Pedestrian Safety Starts with You: Stay Alert to Protect People Walking**

October is National Pedestrian Safety Month

Message: FOR IMMEDIATE RELEASE

CALIFORNIA OFFICE OF TRAFFIC SAFETY

Chula Vista, CA – October is National Pedestrian Safety Month. The Chula Vista Police Department would like to remind drivers to slow down and be alert for people walking on our roads. By always taking extra precautions, you can help protect pedestrians and reduce the risk of crashes and injuries. Walking should always be an easy and safe option for getting around any community.

According to the National Highway Traffic Safety Administration, 7,522 pedestrians were killed in traffic crashes across the United States in 2022. In California alone, 1,158 pedestrians were struck and killed on California roads in 2022, accounting for 26 percent of all traffic-related fatalities in the state. The high number of pedestrians injured and killed on our roads highlights the urgent need for increased awareness and safety measures for people walking.

“Every step we take towards greater pedestrian safety is a step towards saving lives,” Chula Vista Police Department Agent Brian Carter said. “We want to remind everyone that safety begins with you, whether you're behind the wheel or on foot. Small actions, like slowing down, putting away distractions, and yielding at crosswalks, can make a life-saving difference.”

The Chula Vista Police Department offers safe driving and walking tips, including staying off the phone when behind the wheel or walking.

Drivers

- Do not speed, and slow down at intersections. Be prepared to stop for pedestrians at marked and unmarked crosswalks.
- Avoid blocking crosswalks while waiting to make a right-hand turn.
- Never drive impaired.

Pedestrians

- Be predictable. Use signalized crosswalks where drivers may anticipate foot traffic.
- Watch for approaching vehicles and practice due care crossing the street. At 30 mph, a driver needs at least 90 feet to stop.
- Make it easier for drivers to see you at night – consider wearing bright colors and reflective material or use a flashlight when practical.
- Be careful crossing streets or entering crosswalks at night or on busier streets with higher speed limits.

Share your thoughts about pedestrian safety by participating in the Go Safely Movement, a call-to-action traffic safety survey from the California Office of Traffic Safety. Take the survey at gosafelyca.org.

Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
